About PICTMUN

The **Pune Institute of Computer Technology Model United Nations (PICT MUN)** provides a stimulating environment for students to develop their leadership skills and global awareness. Participants take on the roles of diplomats representing different countries in meticulously designed United Nations simulations, working together to address urgent real-world issues.

Students from various academic and cultural backgrounds come together through PICT MUN, which promotes teamwork and creative thinking. In addition to developing deep relationships with peers, this stimulating environment helps participants improve their research skills, public speaking abilities, and understanding of current events.

The main goals of PICT MUN are to motivate students and give them practical experience in strategic problem solving and diplomacy. We think that this foundation equips them to become capable leaders who can promote constructive change in our world, which is becoming more interconnected by the day.

Message from Secretary General

With great pleasure, I extend an invitation to you to be a part of this year's PICT Model United Nations conference, where you will assume the roles of diplomats and representatives from other countries. The challenges on our agendas don't have easy answers. They demand precisely what we hope you will provide to these committees: a sincere interest in other viewpoints, careful planning, and a readiness to participate in meaningful discussion. You'll find yourselves defending positions you may not have held before, listening to arguments that challenge your assumptions, and working toward compromises that serve broader interests. Prepare yourself for some tough discussions, contentious negotiations, and memorable experiences that will last long after you depart. Get ready for some intense debates, heated negotiations, and moments that will stick with you long after you leave. We hope PICTMUN offers you both: a space to grow as a delegate and a community you'll carry with you long after the closing ceremony. We warmly welcome you to join us for PICTMUN 2026, an experience that we believe will challenge, inspire, and stay with you for years to come.

Best Regards,
Vedant Panse
Secretary General
PICT MUN 2026

Message from Director General

It is my great honour to welcome you to PICT Model United Nations 2026. Serving as the Director General of this conference is both a privilege and a responsibility, and I am truly humbled to lead an event that over the years has become one of the finest platforms for dialogue, learning and collaboration. PICT MUN has established itself as one of the finest conferences in the circuit, known for its high standards of debate and professionalism. It is not just a platform for discussing policies, but a space for understanding perspectives and discovering the value of cooperation. These qualities are at the heart of what I wish every delegate to take away from PICT MUN 2026.

My vision for this year's conference is simple yet meaningful to create an environment where delegates can think critically, speak confidently, and most importantly listen with respect. I hope this experience encourages you not only to engage with global issues but also to carry forward a sense of responsibility in your own societies.

PICT MUN has always been more than an academic exercise it is a space where friendships are made, ideas are born, and leaders are shaped. I am confident that this edition will continue that tradition, leaving each of you with memories and lessons that last far beyond the committee room.

On behalf of the entire Secretariat, I extend my warmest invitation to every delegate to what promises to be a memorable conference.

Warm regards,
Jeetamitra Nayak
Director General
PICT MUN 2026
